

water, the cotton fabrics burn less than 15 mm (6") at cut edges and retain at least 2.0% and no more than 3.0% phosphorus by weight of fabric.

B.40 Contd
~~12~~² (Amended). The wash resistant durable fabrics defined in Claim ~~11~~¹ further including 5 to 30% thermoset fibers in said warp yarns [for woven fabrics and in wale yarns for knit fabrics].

~~13~~³ (Amended). The wash resistant durable fabrics defined in Claim ~~11~~¹ wherein said thermoplastic fibers are only in said warp yarns [for woven fabrics and only in said wale yarns for knit fabrics].

REMARKS

The Office Action dated 12/28/94 has again been carefully reviewed. The telephone conversations of March 20, 1995 and March 24, 1995 are acknowledged.

In the above-mentioned telephone conversations, the Examiner indicated that the product claims (Claims 11-16) and the method claims (17-22) would be restricted, and asked the applicant to cancel one set of such claims in this application. The Examiner also requested deletion of the limitations associated with knit fabrics from the claims. The Examiner indicated that if the claims were so amended, the application would be allowed.

Applicant has cancelled method Claims 17-22, and has amended the remaining claims to delete the limitations associated with knit fabrics. Applicant will file a divisional application on the method claims, Claims 17-22.

In view of the foregoing amendments and the indication of

allowable subject matter, it is believed that this application is now in condition for allowance. Accordingly, review and allowance are requested.

Respectfully submitted,

Terry M. Gernstein
